I am a junior developer with proven experience developing clean, modern software solutions and maintaining legacy systems within a small, agile team.

- Javascript/Typescript/React/NextJS
- HTML
- CSS
- Cloudinary
- Storybook
- Git
- Bloomreach CMS

Experience

Sofology Ltd / Junior Software Developer

OCTOBER 2018 - PRESENT, Golborne, Warrington [REMOTE]

My journey as a software developer began at Sofology where I was initially employed as a Web Chat Advisor.

In 2021, Sofology provided the opportunity to be a part of the Software Development apprenticeship in which I succeeded in the interviews and ultimately went to Bootcamp provided by CodeNation which is where I learned the development fundamentals of the SDLC, Javascript, React and Node.

Upon completing my apprenticeship and achieving the Level 4 Software Development diploma I began work as a Junior Web Developer in which I maintained the legacy codebase across multiple projects, mainly focusing on enhancing the user experience, SEO and bug fixes.

I'm currently working with Typescript, NextJS, Git, Cloudinary, Storybook and Bloomreach SaaS CMS in replatforming the Sofology e-commerce website using new technology, which is mainly focused on headless and REST API principle.

Education

BCS, The Chartered Institute for IT / Level 4 Diploma in Software Development Methodologies

Awards & Certifications

Programming in HTML5 with JS and CSS3 - Microsoft Certified (854-6706)
